Millionth Circle: Empowering Women and Girls, Changing the World

"The millionth circle" refers to the circle whose formation tips the scales and shifts planetary consciousness. The premise is that a proliferation of circles with a spiritual center will energize a global women's movement. When a critical number, the metaphoric millionth circle forms, it will be the tipping point. Gender balance and empowerment of women results. The workshop will provide information and the experience of being in a circle with a sacred center.

Ecology and Feminism: Sacred Feminine, Circles, Valuing Girls and Trees

Valuing and empowering girls and women and concern for trees and the Earth are linked. Women activists with a sense of sisterhood, a love of nature, maternal concern for children and the planet share a spiritual connection to the sacred feminine, mother nature, indigenous wisdom, and Earth as home. Circles with a sacred center are a source of support for heart-connected activists. In this workshop, participants will experience being in a circle, and gain an understanding of the principles of circle.
